

Our Process is Simple

We work with you to get you the most approvals with the least amount of hassle.

1) Submit Credit Applications

- Enter applications through our online portal, submit by fax or email or call our expert credit analysts while in the home.
- We'll give you an answer in just a few minutes.

2) Complete Loan Docs

- From the online portal, generate loan documents for remote electronic signing, in-person electronic signing or print hard copies to sign.
- If hard copy documents were signed, fax, email or upload copies in the online portal and then mail the original, signed copies to FFC.

3) Pre-verification

- Let the customer know FFC will contact them within 24 hours to verify loan terms and application information.
- After the call is completed, you will receive an email notification to proceed with installation.

4) Complete The Job

- Once the job is finished, submit the completion certificate.
- FFC will fund you by ACH within 24-48 hours once the job is complete and the final verification call is done.

5) Get Paid

- If hard copy documents were signed, we need the originals prior to funding.
- FFC will fund you via ACH within 24-48 hours of final verification call.
- You will receive an email notification of funding.

Best Practices

- Get co-applicant whenever possible (gives you more approvals).
- Be aware of any state-specific financing requirements.
- Down payments must be disclosed on loan documents.
- In CA – the law requires you to wait until the 3 day right-to-cancel period expires before installing.
